## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims filed with the amendment of February 21, 2008, claims 24 and 25 are listed as cancelled. However, in error, a duplicate claim 25 still remains in the listing of the claims.

As such, claim 25 is cancelled.

Claims 1-7, 10-23, and 26-28 are pending.

### ***Allowable Subject Matter***

**Claims 1-7, 10-23, and 26-28 are allowed in view of the prior art.**

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a coherence microscope, the microscope comprising, among other essential elements, a point light source emitting measurement light onto a specimen and at least one confocal aperture member, and a microscope optical system that focuses the measurement light on the specimen and focuses the measurement light reflected by the specimen on at least one confocal aperture member, wherein the aperture of the at least one confocal aperture member is so selected that the depth extent of the confocal zone substantially corresponds to the depth

Art Unit: 2877

stroke of the coherence microscope, in combination with the rest of the limitations of the above claim.

As to claim 28, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a coherence microscope, the microscope comprising, among other essential elements, an optical fiber which feeds measurement light from a point light source to a microscope optical system and an ordered fiber bundle which is interposed between the optical fiber and the microscope optical system, the fibers of the ordered fiber bundle being arranged in linearly mutually juxtaposed relationship at the proximal end thereof; and a scanning device including a rotatable polygonal mirror for coupling measurement light into the fibers of the ordered fiber bundle and/or for coupling measurement light reflected by the specimen out of the fibers, in combination with the rest of the limitations of the above claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL A. LYONS whose telephone number is (571)272-2420. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory J. Toatley can be reached on 571-272-2800 ext. 77. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
